

GREAT WESTERN MALTING

PRODUCT SELECTS

ABOUT US

Founded in 1934, Great Western Malting is the oldest malting company in the western United States, with deep roots in Northwest barley farming communities.

Barley is sourced from a network of growers across Washington, Oregon, Idaho, Montana, and California, where volcanic soils, arid climates, and mountain-fed water create a unique terroir ideal for producing high-quality malting barley. Working closely with independent farmers, Great Western Malting ensures consistent quality from field to finished malt.

Production takes place at a state-of-the-art facility in Pocatello, Idaho, where modern malting techniques are used to deliver consistent, high-performing malt.

Designed for today's beverage producers, Great Western Malting products are well-suited for modern beer styles and New World spirits, offering the versatility, performance, and reliability required by brewers, distillers and beyond.

WHERE WE'RE LOCATED

POCATELLO, ID

Located in one of the premier regions of the US for growing high-quality malt barley and wheat, our Pocatello plant is strategically positioned with rail access right next to the facility. The majority of the barley and wheat processed here is sourced within 100 miles, ensuring x1981, complemented by a state-of-the-art Buhler-designed expansion completed in 2017.

In 2022, Pocatello became even more advanced with the commissioning of the Optisteeep® water purification system. This cutting-edge technology reduces water consumption during the malting process by up to 30%—all while maintaining the highest quality and consistency of our malt specifications.

Site Tonnage Capacity: 225,000 metric tons

TABLE OF CONTENTS

5 BASE MALTS

9 SPECIALTY MALTS

CRYSTAL 15 MALT
CHIT MALT

12 WHEAT MALTS

WHITE WHEAT MALT
LOW COLOR WHEAT MALT

BASE MALTS

SUPERIOR PILSEN MALT - 55 LB

Item Number: **GW-PILS**

ORGANIC: **GW-OSPL**

SRM	1.3 - 1.7	Protein	11.0
Moisture %	4.5	Extract	82

Superior Pilsen malt is produced with care and a gentle processing regime. By utilizing lower protein barley and a delicate kilning program, we are able to create a fully functional base malt with accentuated extract and low color formation.

PREMIUM TWO ROW MALT - 55 LB

Item Number: **GW-2ROW**

ORGANIC: **GW-O2RP**

SRM	1.8 - 2.2	Protein	11.5
Moisture %	4.5	Extract	81

Premium Two Row is produced from Western U.S. barley, this base malt is processed meticulously to create a balanced flavor profile designed to be at the heart of your craft.

PURE IDAHO - 55 LB

Item Number: **GW-PIDM**

SRM	1.3 - 1.7	Protein	11.0
Moisture %	4.5	Extract	82

100% Idaho-grown barley. This special base malt is fully-modified and gently dried. It contributes a balanced flavor profile designed to be at the heart of your craft.

PURE OREGON - 55 LB

Item Number: **GW-PORM**

SRM	1.6 - 2.3	Protein	12.0
Moisture %	4.5	Extract	81

100% Oregon-grown barley. This special base malt is fully-modified and gently dried. It contributes a balanced flavor profile designed to be at the heart of your craft.

PURE WASHINGTON - 55 LB

Item Number: **GW-PWAM**

SRM	1.6 - 2.3	Protein	12.0
Moisture %	4.5	Extract	81

100% Washington-grown barley. This special base malt is fully-modified and gently dried. It contributes a balanced flavor profile designed to be at the heart of your craft.

DISTILLING MALTS

AMERICAN DISTILLERS HIGH ENZYME MALT

Item Number: **GW-ADHE**

SRM	1.5 - 2.2	Protein	14.0	Moisture %	5.5
DP	260	AA	110		

When you think of fine bourbon, you likely think of that stimulating hit of alcohol followed by smooth flavors that deliver the perfectly balanced taste. Great Western Malting understands that maximizing the potential of all the ingredients in your recipe is important, and that malt performance should not come at the expense of taste. The high enzyme levels of this High-Enzyme Malt allow for efficient alcohol production without compromising the essential and sometimes subtle flavors in your distillate.

AMERICAN DISTILLERS NON-GN MALT

Item Number: **GW-ADNG**

SRM	1.5 - 2.2	Protein	10.5	Moisture %	4.5	GN	<0.5
DP	125	AA	60	Extract %	82.5	PSY	405

Optimal Pacific NW weather conditions and team of experienced growers allow us to source barley and produce malts that are unparalleled in the industry. Non-GN Malt is a complete package of highly available starches and sugars, with just the right levels of enzymes and other nutrients, resulting in a malt with superior spirits yield. Our access to Odyssey, as well as other esteemed non-glycosidic nitrile producing barley varieties (nonGN), allow us to meet the discerning needs of American single malt whiskey producers

SPECIALTY MALTS

CRYSTAL 15 MALT - 55 LB

Item Number: **GW-C15M**

ORGANIC: GW-OC15

SRM	12 - 18	Protein	-
Moisture %	7.8	Extract	77

Light caramel with a bright sweetness and delicate malty flavor.

CHIT MALT - 55 LB

Item Number: **GW-CHIT**

SRM	2.0	Protein	12.0
Moisture %	5.0	Extract	50.0

Great Western Malting's Chit Malt is under modified premium 2-row, which enhances haze stability, foam retention and mouthfeel.

GREAT WESTERN MALTING® MEET THE MASTERS BEHIND OUR MALT

TEVIS VANCE

GWM Plant Manager in Pocatello, Idaho

For more than 85 years, Great Western Malting has been employing people with the passion and expertise needed to make great malt – the key ingredient and backbone for making great beers and whiskey.

The world's best malt is not created just by algorithms and recipes. It takes an intuition and instinct only found in the teams that walk the malting beds every day – ensuring a consistent, quality product batch after batch.

That is the spirit behind our craft.

WHEAT MALTS

WHITE WHEAT MALT - 55 LB

Item Number: **GW-WWHT**

ORGANIC: GW-OWHT

SRM	3.0 - 4.4	Protein	11.5
Moisture %	5.0	Extract	86

Our White Wheat malt is grown exclusively in the Pacific Northwest. Fully malted and kilned to develop soft balanced sweetness, high extract and a light bready flavor. Great for foam retention.

LOW COLOR WHEAT MALT - 55 LB

Item Number: **GW-LCWT**

SRM	<2.0	Protein	11.5
Moisture %	5.0	Extract	85

Low Color Wheat Malt provides a light foundation for wheat beers like Hefeweizens and American Wheats. This malt provides very little color while contributing characteristics of high protein wheat malt that improve head retention, full body, and mouthfeel.

Pink Boots Malt

CRAFT BASE MALT FOR BREWERS AND DISTILLERS

As part of a global family of brands, Canada Malting Co., Great Western Malting, and Country Malt Group all share the same values of diversity, equity and inclusion. With one foot in the farming community and the other placed firmly in the craft beverage industry, we're passionate about empowering women and non-binary individuals across the supply chain; from the barley fields to our malthouses, and from our distribution centers to the taprooms.

The Pink Boots Malt was born from the idea to involve more members of the industry in our efforts to uplift women and non-binary colleagues, as malt is a core ingredient for both brewers and distillers. With each bag purchased, a donation is made to the Pink Boots Society scholarship fund to support their mission: to assist, inspire and encourage women and non-binary individuals in the fermented/alcoholic beverage industry.

PB-MALT

Typical Analysis

COLOR SRM	1.6	EXTRACT (%)	83
